[V2Market](#) is the Horizon 2020 project that will connect electric vehicles to the energy markets through Vehicle-to-Grid (V2G) and Vehicle-to-Building (V2B) technology.

July 2023

V2Market joins the #SmartEnergyCluster!

We are proud to announce that we recently joined the **Smart Energy Cluster** together with 19 other European projects, in a collective effort to speed up the smart energy transition.

Meet our cluster!

partner [OMIE](#).

Trabajo de OMIE en el campo de VE

OMIE forma parte del consorcio del proyecto europeo V2Market que busca incorporar al vehículo eléctrico como elemento de almacenamiento móvil en el mercado y sistema eléctrico gracias a las tecnologías V2G y V2B. OMIE aporta el conocimiento sobre el funcionamiento y regulación del mercado y pone a disposición del proyecto V2Market las plataformas de negociación de los mercados globales y locales aportando las señales de mercado necesarias en el demostrador para incorporar la flexibilidad de los vehículos eléctricos en los mercados. Recientemente, el proyecto ha sido finalista de la primera convocatoria de los Premios de la Energía, organizado por el Periódico de la Energía en el sector de movilidad.

El vehículo eléctrico ha de jugar un papel fundamental en el proceso de transición energética, aportando flexibilidad al mercado de electricidad. La adecuada gestión de los procesos de carga y descarga de los vehículos proporcionará una ayuda fundamental para favorecer la implantación de instalaciones de producción renovable, evitar vertidos y reducir la emisión de carbono. El mercado de electricidad ya proporciona en la actualidad los mecanismos y señales de precio adecuadas para el desarrollo de esta flexibilidad. Impulsar la regulación que permita hacer realidad todas las oportunidades mencionadas, debe de ser una prioridad que atender en los próximos meses.

Check it out!

Past & Upcoming Events

V2Market is taking part in some of the most important and innovative events driving the clean energy transition. This provides a unique opportunity to discuss with a wide audience, the importance of bidirectional charging and flexibility services that electric vehicles can provide to the power system.

The Smarter E Europe 14-16 June 2023 Munich, Germany

V2Market was present at the Smarter E, Europe's Largest Platform for the Energy Industry, as part of [smartEn - Smart Energy Europe's](#) booth.

We always strive to share our innovative project with energy professionals from all over the world and this year was no exception! We had some interesting exchanges and got to meet a lot of likeminded, energy flexibility enthusiasts!

 FLEXIBLEPOWER
ALLIANCE NETWORK

FLEXCON 2023, organised by [smartEn - Smart Energy Europe](#) and [Flexiblepower Alliance Network \(FAN\)](#), is one of the most anticipated events in the energy world, dedicated to Energy Flexibility.

This year it will be back for its fifth edition on **20 & 21 September** in Brussels and V2Market will be there! If you want to be in the know of all energy flexibility news and to join an impressive line-up of smart energy experts, then look no further!

Get your ticket now

V2Market will also be present at [Enlit Europe 2023](#) later in the year, on **28 - 30 November** in Paris, at smartEn's dedicated zone on demand-side flexibility.

If you want to join a community that is constantly growing, and addresses every aspect of the energy agenda, this is the event for you!

Have a look and [register now!](#)
