IN THE SPOTLIGHT

[Discover the story behind their development.](#) HORIS building renovation one-stop-shops for Italy, Spain and Portugal are out. Embedded into the three countries' consumer organisation sites, they provide consumers with all they need to know to kickstart their renovation and take informed decisions. A second IEECP podcast from the Energy in your ears series is out, discussing with DGG's Suze Gehem the story behind the "Green Menu".

[How can we make SMEs more energy efficient?](#) The project has gathered testimonies from SMEs in France and Italy to showcase how the audits provided by DEESME 2050 have been the tailored approach they needed to become more energy efficient. Helping companies gain better awareness of how they consume energy in their daily work has proven fruitful. Browse through testimonies from SMEs in the DEESME 2050 project!

[Report](#) (RENOVERTY and IEECP) – This report, output of the RENOVERTY project, details the **replicability and application of the Composite Energy and Transport Poverty Indicator (CETPI)** across seven European countries: Austria, Belgium, Finland, France, Germany, Slovakia, and Spain.
