IEECP special - events 2025

SEPTEMBER

[Evaluations of energy efficiency policies: What do they tell us?](#) (ENSMOV Plus workshop) – September 10, 11.00 - 12.30 CET, online. When targets become more ambitious, assessing policy impacts becomes even more essential. This workshop will share experience from France, United Kingdom and Ireland in charge of such evaluations.

[Which digital tools do one-stop-shops use and for what?](#) (HORIS) – September 11, 10.00 CET, online. Digitalisation is transforming home energy renovation, but what tools OSS teams are actually using on the ground? From AI diagnostics to 'digital twins' and online OSS platforms - these digital tools are shaping the future of integrated home renovation services – hear from 3 practical examples in this webinar.

[Competitiveness in transition: Transposing energy efficiency policies to national regulations](#) (AUDIT2MEASURE, DEESME2050, Entrainer) – September 16, 10.00 CET, online. We are sitting policy, research, and industry at the same table to discuss how companies can play an active role in preserving EU industrial competitiveness all the way through the green transition.

[The multiple manifestations of housing inequalities - Inclusive living, working and moving](#) (Houselnc and sister projects) – September 17, 11.00 CET, online. This webinar is organised by a network of EU-funded sister projects that explore the intersecting dimensions of housing inequality – from access and affordability of housing to energy poverty and the social inclusion of migrants and marginalised communities. The projects have planned to discuss housing inequality pathways, good practices and practical guidelines for migrant inclusion in the energy sector, social housing retrofits and housing access, energy rights for newcomers in Greece, and more.

[Accelerate the implementation of energy-saving measures in industry following energy audits](#) (AUDIT2MEASURE) – September 24, 11.00 CET, Berlin, Germany. Through four thematic workshops, the participants will be invited to confront their experience in the industry and discuss project results with the Audit2Measure consortium, identifying companies' needs, policy gaps and opportunities for further support measures in the European manufacturing sector.

[Rethinking policy evaluation: Integrating and leveraging the multiple benefits of energy efficiency](#) (SEED MICAT & Enefirst Plus) – Energy Evaluation Europe conference 2025, September 24, 17.00 - 19.00 CET, Berlin.

[Citizen-led renovation – Barriers, opportunities and recommendations](#) – September 26, 10.00 - 11.30 CET, online. An interactive webinar that explores the key barriers and opportunities for citizen-led renovation and discusses recommendations to scale up this community-driven approach. The workshop will explore barriers faced by CLR communities – from technical and financial to social and regulatory – and discuss recommendations to overcome

[Halfway to 2030: Snapshots of member states' energy efficiency policy measures](#) (ENSMOV Plus Webinar) – September 30, 11.00 - 12.00 CET, online. As we approach the transposition deadline for the revised Energy Efficiency Directive (EED), the ENSMOV Plus project has produced snapshots of Member States' energy efficiency policy measures, collating detailed policy design and delivery information alongside insights from interviewees involved in policy implementation.

OCTOBER

[Plugging energy efficiency first in SECAPs: Why and how](#) (Enefirst Plus workshop) – October 1st, 10.00 - 11.30 CET, online. This workshop will discuss the implications of integrating EE1st in the process of SECAPs, sharing experience about how it can be done, through the feedback from the pilot case done by ENEA and the municipality of Naples.

[The Energy performance of buildings directive in practice – The role of building performance data for member states](#) (EU BSO and OBSERVE) – October 2, 10.00 CET, online. This joint webinar aims to help Member States turn the provisions of the recently published EPBD guidance into practical action. The focus will be on the crucial role of building performance data in enabling effective national implementation of the directive.

[Boosting energy efficiency in industry: Proven solutions and real business cases](#) (RE-WITCH and the 2cool2waste initiative) – October 2, 11.00 CET, online. How can European industries cut energy costs, reduce emissions, and boost efficiency at the same time? Join our first 2cool2waste webinar and discover concrete solutions and business cases from 11 Horizon Europe projects working on renewable energy, waste heat recovery, and advanced thermal management.

[IN-PLAN train-the-trainer](#) – October 2-3, Vienna, Austria, in the framework of the [YES-Europe Conference](#). A face-to-face event that will equip participants with the knowledge, tools, and confidence to support local and regional authorities in integrating energy and climate planning into spatial planning processes.

[Smart Readiness Indicator thematic track at Sustainable Places](#) (eu.bac, SRI2MARKET, SmartSquare, easySRI) – October 9, 9.00 CET, Milan, Italy. The SRI will again be a topic of discussion and knowledge exchange at the Sustainable Places conference where LIFE and HORIZON projects working on the SRI will share their insights with invited industry representatives during a 4-hour thematic track in the main auditorium. Organized by stakeholders active in the Working Group #3 of the SRI Platform and the LIFE SRI projects nearing completion, this session will focus on the results available and next actions to take in order to facilitate the implementation of the SRI by industry.

[Tools to support the uptake of the Smart Readiness Indicator](#) (SRI2MARKET, EVELIXIA, SmarterEPC) – October 8-10, Milan, Italy. The intended workshop will focus on the Smart Readiness Indicator (SRI) and the identification of effective actions to improve a building's SRI score. The session will showcase several tools developed by EU projects such as SRI2MARKET, EVELIXIA, and SmarterEPC. A live demo of the tools will be conducted on the platform, offering participants an interactive, hands-on experience.

[Scaling impact: Collaborative pathways for sustainable building renovation in Europe](#) (Citizen-Led Renovation at Sustainable Places) – October 8-10, onsite and online. The session will explore innovative, scalable, and cross-sectoral approaches to construction and renovation, highlighting how projects are addressing key challenges such as circularity, digitalisation, social inclusion, resilience, and policy alignment.

[From waste to worth: Circular pathways for decarbonising the built environment](#) (DeCO2) – October 8-10, Milan, Italy, under the framework of the Sustainable Places event. Together, the contributing projects, present an innovative approach to enabling integrated building decarbonisation. The session aims to identify key strategies for accelerating Europe's just and circular transformation by connecting digital innovation, urban mining strategies, and citizen engagement.

[The future of space cooling in Europe](#) (CoolLIFE) – October 14, 18.00 - 20.30 CET, Press Club, Brussels, Belgium. Key highlights will be presented from the EU policy framework, the upcoming heating and cooling plan,

IEECP at the EU Week of regions and cities – Meet our people and projects in the following sessions and don't miss your chance to register before September 30:

- An [ENTRACK stand](#), which will be running throughout the event.
- A [joint stand](#) with IN-PLAN, RECET, REGIO1st and PLAN4CET.
- The event "[Small towns, big energy: Citizens shaping a sustainable future](#)" [workshop](#) in collaboration with [PLENTY-Life](#) and ENTRACK, to highlight both projects' results, showcase case studies and inspire participants to implement similar strategies in their regions; 14 October 2025, 9.30 - 10.30 CET.
- The [EU RegioTalk making energy efficiency first a reality for regions and cities with Regio1st](#), 14 October 2025, 10.30 - 11.00 CET.
- The session "[Empowering communities through inclusive renovation and regional sustainability](#)" with RENOVERTY to explore how citizen-led initiatives are transforming Europe's buildings to create a more energy-efficient, inclusive, and resilient future. 15 October 2025, 11.30 - 13.00 CET.
- [The EU RegioTalk One Plan, many gains: Powering the cities of tomorrow](#) with IN-PLAN, 15 October 2025, 15.30 - 16.00 CET.

Co-funded by
the European
Union

[Please look up! Efficient, resilient, fair and smart – what does our energy and climate future look like?](#) Join us in Brussels or online on 15 and 16 October, combining different LIFE funded projects: [Ineexs](#), [Regio1st](#), [CoolLife](#), [RENOVERTY](#), [Reverter](#), [EP-0](#), GigaRegioFactory and [ENSMOV Plus](#) ! This two-day conference is a unique opportunity to meet and hear from research developed and experiences shared over the past four years and interact with experts and practitioners from various countries and fields, and working on shaping the future of energy in Europe. This event will feature four key sessions:

- **The future of energy efficiency:** Learn about the findings and business cases from the InEEExS project.
- **Advancing regional energy planning with Regio1st and CoolLIFE:** Discover how to integrate the "Energy Efficiency First" principle into regional planning through Heating & Cooling Integration.
- **The renovation revolution:** A deep dive into building renovation and addressing energy poverty, with insights from the Reverter, RENOVERTY, EP-0, and Giga Regio Factory projects.
- **How are energy efficiency policies delivering?:** A review of progress towards 2030 energy savings

Call for posters: we invite participants to submit abstracts for poster sessions. The abstract should be related to the conference's energy and climate projects. The **deadline for submission is September 10, 2025**. Guidelines will be provided after the selection process.

[Register here](#)

[Apply for the poster sessions](#)

[Decarbonising the dairy sector: Energy efficiency, heat pumps & biogas across the value chain](#) (BETTED) – October 16, 9.30 - 12.30 CET, online. An interactive online workshop exploring innovative solutions, such as heat pumps, biogas, and cold chain optimisation, already making an impact across the dairy value chain.

NOVEMBER

SMARTCITY
EXPO WORLD CONGRESS
4 - 6 NOVEMBER 2025
BARCELONA

**THE EVENT

Let's build the future of energy in Bilbao - visit us at Enlit

[Meet IEECP and RE-WITCH at ENLIT Europe in Bilbao](#), 18-20 November 2025! We'll have a shared space with the 2cool2waste initiative, introducing key projects working on industrial (waste) heating and cooling technologies. Enlit Europe is where utilities, grid operators, developers, investors and tech pioneers come together to accelerate the energy transition. Enlit are on a journey to Connect industries, inspire action and help Europe Evolve into one decarbonised and digitalised energy system for the energy transition, across borders and across sectors. In need for a discount to join onsite? Contact [Marine Perrio](#).

SAVE THE DATE: [Building together: Lessons & learnings from the support service for Citizen-led renovation](#) – November 19, 10.00 - 17.00 CET, Brussels, Belgium. A full-day gathering that brings together the consortium of the Support service for Citizen-led renovation (CLR), stakeholders, and community representatives to reflect on the achievements, challenges, and future of citizen-led renovation in Europe.
