

IMPLEMENTORS

Building Owners (such as private owners, public authorities, building administrators, building managers, asset managers, property managers, and real estate developers) are users with a building that needs renovation.

Use the platform to:

- Find buildings that need renovation and access their technical, energy, and financial information
- Insert projects from your own clients or portfolio and define energy efficiency measures
- Create and submit tailored offers, including technical solutions and financial performance
- Aggregate projects into investment-ready clusters to increase financing attractiveness
- Get matched with Financiers based on project characteristics and funding needs
- Access tools for risk assessment, and EU Taxonomy compliance
- Monitor the results of implemented projects and build a track record within the platform
